

How to read the sliding fee schedule

Patients at or below 100% Federal Poverty Level (FPL) are charged only a nominal fee for certain essential healthcare services at PCS. Patients falling between 100-200% of poverty will receive a discounted rate for services.

Example:

- If you are a family of 4 and have \$25,000 annual income,
- And if you receive \$13,000 from Social Security and \$80 interest income per year, then your annual income = \$38,080.
- First find your income level on the graph, match it to your family size (spouse and children under 18).
- This will indicate a discount % for your income level and family size (65%). The discount will apply to all of your immediate house hold family members after all insurance benefits have been applied.

2015 Federal Poverty Level (FPL)-Annual Income

Family Size	100% FPL- Nominal Fee \$10 Per visit.	101-125% FPL-pay 30% of bill	126-150% FPL-pay 45% of bill	151-175% FPL-pay 65% of bill	174-185% FPL-pay 75% of bill	186-200% FPL-pay 85% of bill	Over 200% FPL-pay 100% of bill
